Front End Developer

510.610-1980

Meticulously crafting websites and delivering on promised features since 2014

## WORK EXPERIENCE

---

### **Tech Lead, Front End Engineering, Marketing, macys.com** - Feb/2017 - May/2018

- Steered the development aspects of most online marketing content; mentored team of ten developers of various skill levels
- Led adoption of responsive web guidelines in partnership with NYC design team
- Primary triage and troubleshooting point-of-contact

### **Developer, Front End Engineering, Marketing, macys.com** - Aug/2014 - Feb/2017

- Incepted bi-weekly collaboration lab between marketing devs and design
- Developed & updated catalog of features for marketing project managers
- Keeper of department Git repository; point-of-contact for merges and reviews
- Developed marketing campaign pages using HTML, CSS, and JavaScript

### **Other Web Development-Related Experiences:**

- Part-time web development teacher at Oakland Charter High School
- Freelance developer of small business landing pages

## EDUCATION

---

### **Web Development Intensive, General Assembly** - Jan/2014 - March/2014

- Created simple beer rating web app using Ruby on Rails and BreweryDB; emulated some features of the Nest Thermostat utilizing a Raspberry Pi, temperature probes, and with a web interface written in Angular

### **Self-study** - July/2012 - Jan/2014

- Curious about the field of programming, I learned basic concepts of programming and web development with Python, Ruby, HTML, and CSS

## TECHNICAL SKILLS

HTML5, CSS3, Sass, ES5/6, Node, Express, Grunt, Git
